—GIVE—

Medicated vapor baths, oxygen inhalations, electro magnetism, medicated sprays, etc. Office and Sanitarium in the flank block. Consultation free. 10430

HAVE YOU A COLD IN THE HEAD which does not get better? Have you an excessive secretion of mucus matter in the nasal passages? Are you troubled by sneezing, itching, watery and inflamed eyes, frequent soreness of the throat, ringing or roaring in the ears, more or less impairment of the hearing, loss of smell, memory impaired, dulness or dizziness of the head, dryness or heat of the nose? Have you lost all sense of smell? Is your breath foul? If so, you have the Catarrh. (Some have all these symptoms, others only a part.)

Restores the sense of taste and smell, removes bad taste and unpleasant breath, resulting from Catarrh. Easy and pleasant to use. Follow directions and a cure is guaranteed by D. W. MATTHEWS & CO.

## RECOMMENDED.

CAPTAIN CHARLES L. DIXON, of New York City, formerly special agent of the Phoenix and Home Insurance Company at San Francisco, Cal., says: "I have been troubled with Chronic Catarrh for twenty years. A friend in Woodland, Cal., recommended your Catarrh Cure. I procured a jar, having but little faith in its curative properties, but I must say, after using three jars, I am cured of that disgusting disease. Inclosed find \$5 for which send me California CATARRH CURE for some friends, who are sufferers."

## SOLD AND GUARANTEED BY

D. W. MATTHEWS & COMPANY,  
106 STATE ST., SALEM, OR

SNELL, HEITSHU & WOODARD, Wholesale Depot.

## Proposals for Stationery.

## BEFORE IT IS BORN.

Some Startling Statements of Gen. eral Interest.

Dr. Oliver Wendell Holmes, on being asked when the training of a child should begin, replied, "A hundred years before it is born."

Are we to infer from this that this generation is responsible for the condition of the race a hundred years from now?  
Is this wonderful generation the natural result of the proper diet and medicines of a hundred years ago?  
It is conceded in other lands that most of the wonderful discoveries of the world in this century have come from this country. Our ancestors were reared in log cabins, and suffered hardships and trials.

But they lived and enjoyed health to a ripe old age. The women of those days would endure hardships without apparent fatigue that would startle those of the present age.

Why was it?  
One of the proprietors of the popular remedy known as Warner's safe cure, has been faithfully investigating the cause, and has called to his aid scientists as well as medical men, impressing upon them the fact that there cannot be an effect without a cause. This investigation disclosed the fact that in the olden times simple remedies were administered compounded of herbs and roots, which were gathered and stored in the lofts of the log cabins, and when sickness came on, these remedies from nature's laboratory were used with the best effects.

What were these remedies? What were they used for? After untiring and diligent search they have obtained the formulas so generally used for various disorders.

Now the question is, how will the olden time preparations affect the people of this age, who have been treated, under modern medical schools, and codes, with poisonous and injurious drugs. This test has been carefully pursued, until they are convinced that the preparations they now call Warner's Log Cabin remedies are what our much abused systems required.

Among them is what is known as Warner's Log Cabin sarsaparilla, and they frankly announce that they do not consider the sarsaparilla of so much value in itself as it is in the combination of the various ingredients which together work marvelously upon the system. They also have preparations for other diseases, such as "Warner's Log Cabin cough and consumption remedy," "Log Cabin hops and buchu remedy," "Warner's Log Cabin hair tonic." They have great confidence that they have a cure for the common disease of catarrh, which they give the name of "Log Cabin plaster," which they are confident will supplant all others, and a liver pill, to be used separately or in connection with the other remedies.

We hope that the public will not be disappointed in these remedies, but will reap a benefit from the investigations, and that the proprietors will not be embarrassed in their introduction by dealers trying to substitute remedies that have been so familiar to the shelves of our druggists. This line of remedies will be used instead of others. Insist upon your druggist getting them for you if he hasn't them yet in stock, and we feel confident that these new remedies will receive approbation at our reader's hands, as the founders have used every care in their preparation.

## Proposals for Wood.

THE BOARD OF TRUSTEES OF THE Oregon State Insane Asylum hereby invite sealed proposals for wood as follows: Four hundred (400) cords dry pole oak. Two hundred (200) cords dry body oak. Fourteen hundred (1400) cords dry body fir cut of large trees.

The pole oak must not be less than three inches in diameter. Three hundred to five hundred cords of fir, and two hundred to three hundred cords of oak are to be delivered by June 1, 1889, and the remainder by October 1, 1889.  
Bids will be received in amounts from fifty cords up. The wood must be four feet in length and of the best quality, subject to the approval of the medical superintendent of the asylum, and to be delivered at any point on the asylum grounds designated by him.  
The right to reject any and all bids is reserved.  
Bids will be opened at 2 o'clock Tuesday, Nov. 6, 1888.

W. A. MUNSLEY, Clerk of Board.

THE BUCKLEY'S GUIDE is issued March and Sept. each year. It is an encyclopedia of useful information for all who pursue the business or the necessities of life. We can clothe you and furnish you with all the necessary and unnecessary appliances to ride, walk, dance, sleep, eat, fish, hunt, work, go to church, or stay at home, and in various cases, styles and quantities. Just figure out what is required to do all these things, and you can make a fair estimate of the value of the BUCKLEY'S GUIDE, which will be sent upon receipt of 10 cents, or any postage.

W. D. HOYT & CO., Wholesale and retail druggists of Rome, Ga., say: We have been selling Dr. King's New Discovery, Electric Bitters and Buckley's Arnica Salve for four years. Have never handled remedies that sell as well, or give such universal satisfaction. There have been some wonderful cures effected by these medicines in this city. Several cases of pronounced consumption have been entirely cured by use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. Sold by H. W. Cox.

The Streeter and Cunningham electors for Oregon are J. P. Hendrix, H. K. Wilson and E. P. Hammond.

## FACTS FOR THE FARMER.

HORSES IN OREGON.—One horse company operating in Oregon and Idaho has 8,000 native mares on the range.

HIGH PRICES.—Not only cash wheat but all futures are quoted at from forty to fifty cents per bushel higher than a year ago.

WATCH THE DETAILS.—In the management of a farm, as well as with all other pursuits, attending to details has done more to assure success than anything else.

DO ODD JOBS NOW.—"Farm tinkering," ought to be well done up this season, if the oft-repeated advice of the average agricultural paper to do such work on rainy days has been heeded.

TAKEN HEAD WORK.—No farmer need sit down and expect some one to furnish him a ready-made system or plan of conducting his farm; he must make it himself—is the opinion of an acute agriculturist.

CARE OF MACHINERY.—Every lost or broken or worn-out screw bolt should be replaced with a new one before the implement is stored in the tool house or barn, so that when spring comes everything will be ready for work.

HAVE NO VULGAR HELP.—The farmer who will hire wicked, foul-mouthed men to become his children's every-day associates can expect them to grow up with their speech tinged with vulgarity and profanity.

LITTLE BY LITTLE.—If a little clearing, a little ditching, a little enriching, or a little picking up is done each year, the farm will steadily improve. But if the farm suffers a little neglect each year it will soon run down.

QUALITY OF MILK.—The quality of a cow's milk is not affected by the quantity of water she drinks. In other words you cannot dilute her milk by making or letting her drink water. Mr. Lawes, however, is of the opinion that thin and sloppy feeds may have the effect of reducing the quality of the milk. Doctor Vaecker is of the same opinion in regard to the water supply, and he agrees with Mr. Lawes in regard to the effect of the poor, sloppy food on the quality of the milk.

GRASS FOR PASTURE.—In sowing grass for pasture, the best results are reached by sowing a mixture—for instance, of red top, timothy, Kentucky bluegrass, meadow fescue, and meadow oat grass—bearing in mind that mixture of several sorts is more likely to afford herbage through the whole summer, and to be more permanent. In seeding for meadows, though, it is better to sow only one kind of seed, as the different kinds will very seldom be ready to harvest at the same time.

TRELLIS FOR GRAPES.—It is surprising what growth grape vines will make over an evergreen, if given a chance to run. With only a moderately rich soil the vine will cover the trellis, killing it after a few years. Its tendrils cling to the slender stems of the evergreen foliage, and will not relax their hold. The higher the vine runs the finer the grapes and the harder they are to get. It is not a good way to give grape vines their will over any kind of trees. A low, neat trellis will cost but little, and be every way more satisfactory.

## Wonderful Cures.

W. D. HOYT & CO., wholesale and retail druggists of Rome, Ga., say: We have been selling Dr. King's New Discovery, Electric Bitters and Buckley's Arnica Salve for four years. Have never handled remedies that sell as well, or give such universal satisfaction. There have been some wonderful cures effected by these medicines in this city. Several cases of pronounced consumption have been entirely cured by use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. Sold by H. W. Cox.

## TELEGRAPHIC TIDINGS.

Important Events of the Whole World for Twenty-four Hours.

War at the Crossing—More of West—The Wreck—Nuggets of News.

## Yellow Fever Report.

DECATUR, Ala., Nov. 1.—There has been a sudden increase in yellow fever. In the last twenty-four hours eight new cases have been reported.

## Disastrous Prairie Fires.

MINNEAPOLIS, Nov. 1.—A special from Gary, Dak., says: A disastrous prairie fire swept the country east of here last night, destroying thousands of dollars' worth of property, including houses, barns, grain and hay. No loss of life is yet reported.

## A Foolish Strike.

LOS ANGELES, Nov. 1.—The brakemen and switchmen of the California Central & California Southern went on a strike to-day. The trouble is about the order of promotion, the preference having been given to a number of Eastern men brought here as more experienced hands.

## A Corroan Appropriation.

SAN FRANCISCO, Nov. 1.—The steamer San Blas, which arrived from Panama this afternoon, reports that the Chilean Congress has appropriated half a million dollars for the relief of the sufferers by the recent floods in the vicinity of Valparaiso. The country has been terribly devastated, and loss of life is very large.

## Bayard and the Seal Fisheries.

SAN FRANCISCO, Nov. 1.—American private sealers who have their headquarters in this city will one and all fit every available schooner for service in Behring sea next summer. One owner said to-day: "If Bayard would act fairly with us, San Franciscans would fit out fifty or sixty vessels annually, each giving employment to twenty-five men. This trade is bound to be handed over to British Columbia by the discrimination of the administration against us."

## A Remarkable Bet.

This afternoon one of Salem's popular furniture dealers, and by the way a good democrat, made a peculiar bet with a traveling furniture salesman. The Salem man put up the coin to back his statement that Walla Walla county, Washington Territory, would give fifteen or more votes for Cleveland electors. The Portland man can take the money, for it is his. When a man bets that a certain county in any territory will give so many presidential votes you may conclude he is a democrat—they can't read, you know.

## Sackville Writes a Letter.

WASHINGTON, Nov. 1.—No new developments in the Lord Sackville matter have been made public to-day. Lord Sackville's response, formally acknowledging the receipt of Secretary Bayard's letter of expulsion, has been received at the state department. It is as brief and formal as possible, but the department will not make known its language. Nothing definite can be learned as to the date of Lord Sackville's departure, and it is a matter of doubt whether the department will receive any announcement of the fact when he leaves.

## The Tillamook Wreck.

PORT TOWNSEND, W. T., Nov. 1.—The information received at Portland concerning the wreck of the barkentine Makah, near Tillamook, is believed here to be erroneous. The Makah sailed from Port Discovery the 5th ult. lumber-laden for Australia. Large quantities of the deck load of lumber would have washed ashore at Tillamook. And the Makah is so built that she can not upset. There is some mystery about the occurrence. There is no other vessel on the coast named Makah, and the scene of the disaster is far out of the course of a vessel destined for Melbourne.

The agents of the Maine Central Road have been ordered to discontinue the sale of tickets to Chinese.

## CONDENSED DISPATCHES.

Baron Newborough is dead. He was 85 years of age.

The illness of Cardinal Newman is reported to be very serious.

The condition of the King of the Netherlands has grown critical.

The festivities at Athens yesterday in honor of the twenty-fifth anniversary of King George's accession to the throne were on a grand scale.

Mrs. John A. Logan, before sailing for Europe yesterday announced her engagement to edit a magazine for women while abroad. She will be in Europe about one year.

A number of whalers of San Francisco when seen expressed indignation at the government's failure thus far to send relief to the 500 whalers ice-bound in the Arctic region. As the season advances the ice floes will be frozen together, and if aid is not soon sent it will be impossible to reach them at all.

## Cyclones out of Season.

LA PORTE, Iowa, Nov. 1.—A cyclone struck this place at 9 o'clock to-night, coming from the northwest. Union hall was demolished, and a large number of houses were unroofed and blown down, a section of building being carried many blocks away. Great loss has been occasioned to merchants. The residence of Sanders Walker was blown to atoms and children rolled about on the ground. The mother was seriously hurt. No other injuries are reported. The loss on property is \$75,000. Reports of damages are coming from all sections of the country.

## Women in Holland.

A correspondent of the New York Tribune, writing about Holland, says: "You cross a railroad track, and casting a glance along the iron path, a woman, waving a white signal flag, catches your eye. She is the watchwoman at the crossing. At every railroad in Holland this position is filled by women, and railroad officials have ascribed me that no accident has ever been caused by a watchwoman's carelessness. They receive 20 guilders (\$8) per month. A man would require double that salary and he might get intoxicated once in a while. Distinctions in privileges between married and single women are so thoroughly established here by social customs as to be observed in the every-day associations of the sexes. A native will readily discover whether the couple walking on the street in front of him are married or not, this discovery being made easy by the strict adherence of the populace to the ancient custom compulsorily introduced into the country when under the iron rule of 'Alva the Bloody.' An unmarried lady always takes the right arm of her escort, while the married one selects the left side of her husband. So deeply has this custom entered into the life of Hollanders that at a church wedding the bride enters the edifice on the right side of the groom, the young wife returning on the left side of her husband when the ceremony has been performed."

## No Smatterers Wanted.

Vanderbilt pays his cook \$10,000 a year, my boy, which is a great deal more than you and I earn—or at least it is a great deal more than we get—because he can cook. That is all. Presumably because he can cook better than any other man in America. That is all. If Monsieur Saucesnagravi could cook tolerably well, and shoot a little, and speak three languages tolerably well, and keep books fairly, and sing some, and understand gardening pretty well, and could preach a fair sort of a sermon, and knew something about horses, and could telegraph a little, and could do light porter's work, and could read proof tolerably, and could do plain house and sign-painting, and could help on threshing-machine, and knew enough law to practice in the justices' courts of Kickapoo township, and had once run for the legislature, and knew how to weigh hay, he wouldn't get \$10,000 a year for it. He gets this just because he knows how to cook, and it wouldn't make a cent's difference in his salary if he thought the world was flat and that it went around its orbit on wheels. There's nothing like knowing your business clear through, my boy, from withers to hock, whether you know anything else or not. What's the good of knowing everything? Only the Sophomores are omniscient.—Burdette.
